TRAIN ROBBERS HOLD UP NO. 36

Express Car on Fast Mail Looted.

Bandits Hold Crew At Bay With Revolvers While Small Safe Was Blown Open and Contents Taken—Unable to Open Large Safe—Holdup Occurred Near Gainesville, Ga., Early Yesterday Morning—The Passengers Unmolested.

Southern passenger train No. 36, New Orleans to Washington, was held up 5 miles this side of Gainsville, Ga., 60 miles this side of Atlanta yesterday morning about 3 o'clock, by bandits, the express car entered, the small local safe blown open and the contents taken. The robbers also made an attempt to enter the large safe in the car, but the explosion failed to blow the door open. It was reported that there was $50,000 in this safe, but the rumor was denied by officials of the express company.

According to one of the mail clerks the train was flagged just this side of Gainesville, the engineer being told that there was a broken rail ahead, it being presumed that a red lantern was used. After bringing the train to a standstill the engineer was taken in charge while another of the bandits looked after the passengers, keeping them in the cars. Two of the remaining three entered the mail car and with drawn revolvers commanded the express messenger to open the safe. After ascertaining from the messenger that he did not possess a key to either the small or the large safe the bandits proceeded to use dynamite. The explosion blew the small safe door wide open, but the large safe remained intact. The contents of the small safe, amounting to about $700, were taken.

After rifling the safe the bandits retreated in good order,taking the fireman with them in order that the train could not get to the next station at once. Engineer Fant got up a good head of steam and ran into White Sulphur about two miles distant, after which the porter fired until an extra fireman could be secured.

There were, according to the best information obtainable, five of the robbers. Each wore a red bandana 'kerchief tied around their heads, just below their eyes. It would have been hard to have recognized the men in daylight with this disguise and in the night it was impossible to discern their features. The express messenger was the only man who got a good look at the men and he was held near the scene so as to be on hand to identify the men if arrested. It is believed that the men were amateurs.

General Superintendent Hutchins and secretary, Mr. Parker, were on the train, being in Mr. Hutchins' private car. Mr. Parker stated that there was little excitement among the passengers, many of those in the sleepers not learning of the holdup until Charlotte was reached. Those who were awakened and started to investigate were met at the door by one of the bandits with an ugly looking revolver and the command to keep inside the coaches.

The mail clerks in the car next the express car stated that for some time they thought the train stopped because of an accident and at first paid no attention to the stop. But when they looked out the bandit who had the engineer in charge flourished his revolver and they remained inside the car.

No. 36 passed through Greensboro half an hour late yesterday afternoon, leaving here shortly after 2 o'clock. A large crowd of people were at the station to view the express car, which was damaged considerably because of the explosions. The gas arrangement was put out of commission, while the glass in the doors and windows was shattered.

The crew proceeded to Charlotte where they were relieved. The Charlotte News yesterday had the following account of the hold-up:

Held at bay by seven determined bandits who not only used revolvers but resorted to dynamite as well, the crew of train No. 36 of the Southern Railroad, impatiently waited for forty-five minutes this morning between 3 and 4 o'clock while the express car was robbed of between $700 and $800. That no one was injured is due, so say the conductor, the engineer, the porter and the passengers, to the fact that none ventured an interference with the desperate men.

Conductor W. T. Moony was in charge of the train and at the throttle was Engineer Fant. W. D. Miller was the express messenger and Gibson Carlton the baggage master. C. H. Shirley was flagman and a negro was the fireman. The flagman and firemen were left by the side of the road two miles north of White Sulphur Springs, the scene of the hold-up.

Trainmen and passengers tell an exciting account of the hold-up and robbery. "My attention was called to the stopping of the train in the country," Mr. Mooney said. "I followed my porter out of the train and and immediately met a man who pushed a revolver in my face and told me to get inside. At first I did not take the demand very seriously and knocked the pistol down. The man at once leveled it at me again and firmly told me that I would be a dead man in a very few seconds if I did not obey him. Well, I went back into the car, for there was nothing else to do."

"The robbers held the train for about forty-five minutes and then forced the engineer to run along. They would not permit him to blow in the flagman or wait for the fireman, and both of these were left, I made the first report of the robbery at Lula early in the morning and I understand that officers at once begun the trail of the men. Two men stood in the cab of the engine all the while, covering Mr. Fant. Five were scattered along the sides of the train. The messenger in the express car was covered with a pistol and was not allowed to leave the train until dynamite was used."

"The robbers tried at first to uncouple the express car but the steam coupling was so hot they had to desist. It was then they must have decided to use dynamite. They evidently did not want to hurt any one, for they forced the messenger out ahead of them before using the explosive."

Conductor Mooney also said that two or three shots were fired. "One passenger," he exclaimed, "poked his head out of a window, and a bullet whistled close to it. I thing this passenger crawled under a seat at once. At least I know that no one else dared look out of a window. One of the robbers appeared to be about six feet four or five inches tall, and another one was certainly over six feet. I will stay in Charlotte until the investigation is over. We have heard nothing from our flagman who was left by the side of the tracks. His home, long with the rest of us, is in Atlanta, and he may have caught some train going in that direction. I hope he wasn't hurt by the men who may have found him after our train left the spot."

Gainesville, Ga., Feb. 18.—While the search of the bandits has been stimulated by the offer of a $1,000 reward by the Southern Express Company, the only trace of the robbers was reported by a section of the posse which returned to White Sulphur Springs about noon. A camp fire was found near the scene of the holdup, together with an old overcoat, some cooking utensils and several railroad tools. That was nothing, however, to identify the bandits.

Deputy Sheriff W. A. Little, T. N. Haine, special officer for the Southern, B. B. Landers, Judge J. B. Gaston, W. E. Smith and many others from Gainesville are on the hunt for the robbers with blood hounds but no report has been had from them since they left. It is thought that the robbers had horses ready to run immediately after the work was done.

The negro fireman on the engine is now at Lula, Ga. The negro fireman says he was made to leave the engine and go about one hundred yards towards Lula. He says only two pistol shots were fired and that the robbers appeared to be ordinary men and that one of them had a rag tied over his mouth. The train delayed for the robbery only about 30 minutes. The negro could not catch his train as it passed him up the track, as it was running too fast. The engineer was doing all the work, he says. No team or horses was seen and the negro fireman says the robbers left in a flying machine. The fireman's name was Rufus Johnson.

Charlotte, Feb. 18.—Special Messenger William B. Miller, of the Southern Express Company, who had charge of the car entered this morning by the five train robbers stated to a Chronicle reporter:

"My first intimation of the hold up, was the signal of a bad rail ahead. The engineer immediately choked down the train and all of us looked out the doors to see what the trouble was. As the train came to a standstill, shots were fired. All express car doors were slammed shut. All but one. This door was left open in the excitement and it was through it that the robbers entered the car. They placed a gun at my head and told me to get out. I waited a second or two and when I hear shots being fired on the outside, I then left the car. On the outside I was held up. My hands were in the air. I heard two explosions. The first was not so loud. The second was tremendous.

"There were two safes of money in my express car. The large safe contained $65,000. The smaller safe, the one blown open, contained $1,000. I think that was all. Every cent of the money in it was taken. The robbers attempted to blow the larger safe open. Their efforts were futile. The big safe withstood the nitro-glycerine."

HIGH POINT MAN KILLS HIS WIFE

Then Fatally Wounds Son-in-Law.

Moses Speaks Committed Most Atrocious Crime Early Yesterday Morning—After Stabbing His Wife Speaks Went to Home of William Miller and Cut Him So Seriously That He Soon Died—Murderer At Large.

The city of High Point was thrown into a state of excitement early yesterday morning when it became known that Moses Speaks, a white man about 50 years old, had cruelly murdered his wife and fatally wounded William Miller, a son-in-law, a butcher knife being the weapon used. After committing the double murder Speaks fled and at last reports had not been captured.

The murder occurred about 6 o'clock, Mrs. Speaks dying in a few moments. Miller lived about 6 hours, dying at the Junior Order hospital at noon.

The first news came to Greensboro by a telephone message to Chief of Police Neelley to be on the lookout for the murderer and later Sheriff Jones was notified of the awful occurrence. County officers were hurried to the scene to assist the town authorities in their efforts to arrest the murderer, but no trace could be found.

Sheriff Jones, Deputies Shaw, Weatherly and Crutchfield, if plans made last night worked out according to expectations, left here before day this morning in an automobile for High Point to organize a posse and search for Speaks. The sheriff was also arranging last night to have several other deputies go by train and join the party.

Speaks has been in an asylum and has always been a person of weak mind. He was confined in the county jail for some time something like a year ago. That he is a dangerous character is evidenced by the fact that while confined in jail he wrenched loose a chain from his cell and struck Jailor May, who was then in charge, over the head. Several officers assisted in confining him in his cell and he gave no more trouble. Later he seemed to recover his mental faculties and was sent home.

For some time his people have feared that Speaks might commit some fearful crime while attacked with a fit of insanity and they have been making efforts to get him in the asylum for the insane. He has been supported for some time by his wife and children.

Only Friday, according to a report from High Point, he brutally whipped one of his daughters and she spent the night with her sister, Mrs. Miller, the wife of the murdered man. It is thought that Speaks became incensed because his daughter left, blaming his wife with allowing her to leave home, and in a fit of rage killed her. He at once went to the home of Miller and stabbed him several times with the same weapon he used in slaying Mrs. Speaks. It is not to be doubted but he would have killed his two daughters also if he had found them.

Roney Boys Coming.

The Roney Boys will be here in the West Market annex on Thursday evening of this week. This is the sixth entertainment of the Lyceum course and, according to the press reports, bids to be the best of the series so far given here. The program will be a little out of the ordinary and will be sure to delight the audience.

During the great Majestic Range demonstration this week the Greensboro Hardware Co. will serve free lunches to every visitor and present to each purchaser of a range a handsome set of Majestic ware, worth $7.00, absolutely free. See our large advertisement elsewhere in the paper.

MR. SPOON TALKS ON "GOOD ROADS"

Also Told How to Keep Them Repaired.

Practical Road Man Addressed Large and Enthusiastic Gathering of Guilford People Yesterday—Sand Clay Roads Less Expensive Than Macadam and Almost As Good—The Split Log Drag Demonstration.

Yesterday morning a large and enthusiastic body of citizens of Guilford county assembled at the city hall to hear an address on the building of good roads, by Mr. W. L. Spoon, state highway engineer. Mr. J. Van Lindley presided over the meeting.

Mr. A. M. Scales introduced the speaker, Mr. W. L. Spoon, in a short but interesting talk, in which he declared that Mr. Spoon was doing more good than most of the politicians and statesmen put together. This remark brought forth applause. He said that previous to the election authorizing the $300,000 bond issue he and Mr. R. D. Douglas went out on a campaign with a brass band, and that when they told the farmers how much happier they would be and how their property would enhance in value, the people laughed at them, believing that their remarks were but the effusive outbursts of youthful ardor; but that their remarks had come true.

Mr. Spoon said "I believe you people are more nearly at the solution of the real thing than any people I have met with." He said that the drain upon public funds provided for road purposes, caused by the clamor for repairs, had been so complete that nothing had been left for permanent work. He said that there was a difference between a repair fund and one for building first-class thoroughfares, and that nothing should be allowed to encroach upon the fund for building roads; that repairs were entirely different. He thought the county should have the duty of securing rights of way, constructing additions, and of keeping macadam roads in repair, because this required skill such as the people of the townships did not always possess; and that the townships should have in charge the matter of keeping in repair all ordinary dirt and gravel roads. He said that the keeping up of dirt roads was, in his judgment, a matter of ditching, primarily; and secondarily, one of relieving the tendency of mud to stick to the wheels; that the medicine for clay holes was sand; that simply a layer of said over the clay would stop the wheel from picking up the dirt and throwing it up on the sides, thereby causing the rut. He said that sand would stop every mud-hole in the county, and went fully into the building of sand-clay roads, explaining that they were sand roads with a clay binding; that no crushers or road rollers were necessary and that the material was plentiful and could be hauled for about 15 cents per load and that about 1700 loads were required to the mile. He said these roads were satisfactory and cost about one-fourth of the amount required for macadamizing. He said that it cost about $18 per mile to keep up the average road in America, and that it ought to cost under $10 to keep our roads. He told how good roads could be constructed in Guilford of gravel mixed with clay; after the clay is washed out the gravel is left intact and a satisfactory road is the result. In the working of these roads the split-log drag was to be used, which would cost 50 cents each per mile.

Before Mr. Spoon began his address, a paper was read by Mr. Holden, of Gilmer township, in which he advocated a plan to raise money for keeping the roads in repair; the plan being to levy an additional tax of ten cents on each $100 property valuation, to be placed in the hands of the county treasurer and expended in each township in proportion to the amount paid into the treasury; the work to be in charge of three commissioners in each township, chosen by the county commissioners, and serving without pay. County Commissioner Boren said that there was pending in the Legislature at present a bill which he thought would be satisfactory, and asked that Section 35 of that bill be read, which section provides for a special election to be held in each township for a tax of ten cents on each $100 property valuation, to be used in addition to the money furnished by the county for road repairs, which special tax would exempt citizens from the usual method of going out and working the roads.

Prof. Allen Holt said that he should like to be enlightened as to the $300,000 bond issue which was voted by the county, and expressed the belief that if there was no likelihood of the debt's becoming a burden on posterity, the best and most feasible plan would be to call for an additional issue of $200,000 to be used for the purpose of pushing forward the work of giving Guilford more and still better roads.

Mr. John Groome, of Sumner township, said that he favored a bond issue; that if the people of his section were called upon to vote the tax it would not carry, and that he believed the same would be true all over Guilford; because the people in some sections have had no experience in road building, and, furthermore, they would probably lack confidence in those who were to expend the money.

Mr. R. D. Douglas set forth the idea of the Good Roads Association—of forming organizations in every township in the county to arouse interest in good roads. The following volunteered to organize the several townships:

Gilmer—W. A. Aydlett.
Clay—J. F. Starr.
Bruce—J. A. Hoskins.
Rock Creek—C. A. Wharton.
Sumner—John Groome.
Monroe—Jo Hardie, Jr.
Madison—W. F. Wagoner.
Jefferson—W. H. McLean.
Fentress—A. H. Cranford.
Center Grove—E. P. Hancock.
Oak Ridge—J. Allen Holt.
Friendship—J. F. Davis.
Jamestown—Dr. Gordon.
Deep River—Mendenhall.
High Point—F. N. Tate.
Washington—C. L. Sockwell.

After the address Mr. Spoon led his auditors to the lot back of the city hall where he constructed a split-log drag and demonstrated its use on Gaston street. This demonstration was watched with keen interest and the drag came up to the expectations of all and showed that the device was a useful one in road repairing.

DIED IN COLUMBIA.

Mr. D. R. Burch, Uncle of Mr. Earl Ireland, Passed Away Friday Afternoon.

Mr. D. R. Burch, of Durham, died Friday afternoon at 3:10 o'clock in Columbia, S. C., following an illness of two weeks. Mr. Burch was a traveling salesman and was taken suddenly ill while in Columbia. Mrs. Burch and little son were summoned and were with him when the end came.

The remains were brought to Greensboro yesterday on No. 36 and carried to the residence of Mr. E. M. Ireland, nephew of the deceased, 215 Schenck street, where they remained until this morning. The body will be taken to Burlington on the 9:40 train this morning for interment near that place.

Mr. Burch was 37 years of age and is survived by his wife and little son, also a number of relatives. He was a member of the United Commercial travelers and of the Elks, the pall-bearers to be selected from the two Greensboro orders.

All members of Greensboro Council, No. 296, U. C. T. are requested to meet at the hall at 8:30 o'clock and go in a body to the residence, 215 Schenck street, and accompany the remains to the station.

U. C. T.'s Initiate Four.

At last night's meeting of Greensboro Council, No. 296, United Commercial Travelers four candiadtes were initiated and one member received by transfer from the Charlotte council. Following the business session a smoker was held and a number of speeches made. The council is making elaborate preparations for the entertainment of the Grand Council, U. C. T., which meets here in June 3.

LEG AND TWO RIBS BROKEN

Mr. Z. T. Melvin, who lives in the country near here, was badly injured several days ago by a falling tree. He was making a plant bed and had partly cut down a tree which was in his way. He stopped to rest a moment. A sudden gust of wind swept along and blew the tree down. It fell on him, breaking his leg and two ribs. He is sixty-two years of age but is of a rugged constitution and is bearing up well under his injuries. He is the father of Mr. S. O. Melvin, a well known traveling man living on Asheboro street, this city.

JUST Rheumacide IT CURES

Rheumatism and Blood Diseases

The cause of rheumatism is excess uric acid in the blood. To cure rheumatism this acid must be expelled from the system. Rheumatism is an internal disease and requires an internal remedy. Rubbing with oils and liniments may ease the pain, but they will no more cure rheumatism than paint will change the fiber of rotten wood.

Cures Rheumatism To Stay Cured.

Science has discovered a perfect and complete cure called Rheumacide. Tested in hundreds of cases, it has effected marvelous cures. Rheumacide removes the cause, gets at the joints from the inside, sweeps the poisons out of the system, tones up the stomach, regulates the bowels and kidneys. Sold by druggists at 50c. and $1; in the tablet form at 25c. and 50c., by mail. Booklet free.

WATER AN ANAESTHETIC

Hopkins Surgeons Find It Excellent In Appendicitis.

Baltimore Sun.

Lukewarm water is now being used as an anaesthetic at Johns Hopkins Hospital.

Its influence in relieving pain accompanying an operation for the removal of the appendix has been found there to be of great efficacy.

The discovery by Johns Hopkins surgeons that water properly administered is an excellent local anaesthetic has been the source of mueh comment in medical circles.

The many anaesthetics used in surgery have been tested at the Hopkins hospital and found to be of more or less value in relieving pain locally or in a territory of the body where the operation was to be performed. Some have been discarded, while the warm water application seems to have come for a permanent stay.

From Philadelphia yesterday came the account of a girl breaking into song when being operated on for appendicitis It was said she was under the influence of novatain, a new anaethetic as far as its use is concerned in hospital wards. The fact that the girl sang, as she felt no pain, was considered remarkable.

Novatain, as well as stovaine, which is another local anaesthetic, has been used at Hopkins Hospital for nearly two years. Both have been found effective in relieving pain. Recently much attention has been given to the use of water and it is said to have been found of high value.

A surgeon of national repute connected with the hospital said that the use of anaesthetics must be confined to nature of the operations. It is necessary, he said, at times to put the patient under ether to effect coma, thus relieving the pain.

For operations on the appendix or any parts of the extremities a local anaesthetic is generally used. In the past year Hopkins surgeons have experimented with warm water and achieved wonderful results.

The method employed is simple. In an operation for appendicitis, declared the surgeon, all that is necessary is to inject lukewarm water in sufficient quantities under the skin in the vicinity of the part operated on.

"We have obtained great results through the use of water," he said, "and in most cases would rather use it than a drug."

The new use of water is another achievement for Johns Hopkins, which has led most medical institutions in surgical and medical progress.

While the operation is in progress the patient is said to feel no pain, is fully conscious and watches with interest the man with the knife. The use is confined to only a few surgeons, who have learned the proper manner to inject it to get results.

It is said water results in the patient having no after effects, which mark the use of ether and other drugs.

Tortured For 15 Years.

by a cure-defying stomach trouble that baffled doctors, and resisted all remedies he tried, John W. Modders, of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said, "he can't live much longer." "Whatever I ate distressed me," he wrote, "till I tried Electric Bitters, which worked such wonders for me that I can now eat things I could not take for years. Its surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at Fariss-Klutz Drug Co.

The good roads mania will keep many a good man from going wrong.

Russia says she may have to whip China. But the man who wagers his money on the threat will lose it.

Isn't Warnersville as much entitled to a locker club as Charlotte? Certainly; there is no grandfather clause to the prohibition law.

It is to be noticed that the people are very anxious for a new State administration building—provided it can be built without a bond issue.

Mr. Lacy may satisfy those alleged delinquent counties that they are solvent, but his statement will not show any change in the credit side of the State pass-book.

There is one county where men tell the truth, and that is where the citizens are a unit on the proposition that prohibition doesn't prohibit; for it certainly does not where they are "agin" it.

There is no greater farce in the country than that of requiring citizens to go over a road and fill up holes with a few shovelfuls of dirt. The split-log drag is the thing.

If Mr. Bryan will be patient a little longer, he will see his policies given a trial; and one of them will give him a seat in the Senate, if he wants it. But it all depends on his patience to endure.

If we can get a 500-barrel capacity flour mill and save to the city a buggy factory by procuring better freight rates, that is something of an earnest of what a future is before us if we will go after another railroad with commission-form zeal.

The Columbia State asks why Judge Parker does not publish a list of the names of those leaders who he declares are too many for the welfare of the country. The Judge is perhaps right, but he is not going to make a fool of himself by accepting a challenge to wield the muck-rake.

It is, of course, always best to have two great political parties, and recent political discussions upon very important measures as touching the welfare of the people gives still more weight to the argument. But just at this time, if political lines could be obliterated in Congress, at least for a few days, we should see some very important measures passed that are being held up for reasons almost wholly political.

A few days ago Senator Penrose, of Pennsylvania, asked the Interior Department for a bear—a real live bear—for his brother in Philadelphia. He was told that he could have the first one caught in the Yellowstone National Park, if he would pay the expense of crating and shipping. Now the department is being deluged with requests from people all over the country for pet bears. But this has no particular bearing on the status of Colonel Roosevelt. It just means that the American boy is not in for the ordinary domestic pets. He requires a species of animal cognate to his innate desire for something with an element of danger. Chivalry may be passing, but the American boy still gives promise of the old time national prowess and virility.

On Friday Glenn H. Curtiss took his new aeroplane, which he calls the hydro-aeroplane, and flew from North Island, in the Pacific, to the armored cruiser Pennsylvania, a distance of two miles, landing alongside the great ship; he was hoisted aboard. After remaining on deck for a few moments, he descended again to the water and returned to North Island. This demonstration was made to prove to the Navy Department the adaptability of the aeroplane to navy uses, and the officers who saw the feat say that it was successful. To a layman it is not easy to see what this has to do with spotting the enemy and getting tab on his movements; but it proves one very interesting point; namely, that Mr. Curtiss has demonstrated his ability to land the flying machine just where he wants it; and when this feat is established by machines that are both durable and safe, the aeroplane may be considered both as a common carrier and as a part of the equipment of the modern battleship.

NATIONAL CIVIC DAY ON MARCH 10

All Interested Are Requested To Keep Posted by Reading Papers—Children Urged to Join Junior Civic League—The Charlotte Trip.

The reporter for the civic department has had numerous enquiries during the past few weeks as to what had become of the civic department—the complainants stating, with much truth, that, with the possible exception of Elm street, the business thoroughfares, notably Davie street, had never seemed dirtier within the recollection of the oldest inhabitant. While these enquiries, come, for the most part, from ladies who are not members of the Woman's club, but who recognize in the organization a factor potent enough to accomplish in a few months municipal reforms made necessady by abuses of a hundred years, we are glad even of this slight evidence of an awakening—of a realization of the responsibility resting upon the individual, who, collectively, makes the city.

And the civic department, in its turn, asks: What has become of the street force? Indeed, have we any street force, and if so, what sort of a standard do we attempt to maintain? Have we, as a city, any pride at all regarding its appearance? Is there not some way to arouse public sentiment to the importance of doing something to better the physical condition of our cultured and progressive city?

It is for this purpose and with this object that the department is arranging for the appropriate observance of National Civic day, March 10, about which details will be given during the next few days. Citizens are asked to watch the papers and read the announcements as all are asked to co-operate in this public spirited movement. Every white child in the city is invited to join the Junior Civic League and to be in line on that day. Every boy or girl who owns a pony or a wheel or a turnout of any kind is asked to compete for the prizes, which will be offered for the best decorations, and they are all asked to meet with the committee Wednesday afternoon at 3:30 o'clock in the Smith Memorial building and learn more about it. Teachers and parents are asked to see to it that the children understand the significance of this day and encourage them to join the Junior Civic League, which promises so much for them and for the future of the city.

Ladies who wish to go to Charlotte on March 2 and who have not yet reported, are requested to notify the secretary. If the party is less than twenty-five the rate for round trip will be $3.80. If over twenty-five further reduction will be made. The Woman's club is anxious to show its appreciation of the invitation of the Charlotte club by sending a representative body to the Queen City. It is hoped that as many as can do so will avail themselves of this opportunity for a delightful trip and profitable exchange of ideas with one of the most progressive and up-to-date clubs in the state.

Case Not Ended Yet.

All of yesterday in Superior court was taken up with the case of the Standard Mirror Company vs. Philadelphia Casualty Company, the evidence being completed just before court adjourned for the week. The jurors were instructed to report Monday morning at 9:30 o'clock, at which time the argument of counsel will begin. The case will go to the jury late in the afternoon. There are yet fifty-two cases on the calendar, nearly all of which will have to be continued.

Y. W. C. A. Vesper Service.

Miss Christine Snyder, of the State Normal College, will give a talk at the vesper service of the Young Women's Christian Association Sunday afternoon at 4 o'clock. There will be good music and the talk will be followed by an informal discussion "over the teacups." All young women are invited.

Notice Baracas!

The officers and teachers of the Baraca classes of the city and suburbs are urged to attend a meeting at the First Baptist church this afternoon at 3:30. Matters of importance are to be discussed. Don't fail to attend.

Week of Prayer At First Presbyterian Church For Home Missions.

The Emma Gray Missionary Society meets at 4 o'clock Monday afternoon, February 20, in the Memorial building, for the transaction of business. At 4:30 o'clock the meeting will be open to all ladies of the congregation in a prayer service, this being the first service for the week of prayer for home missions.

There will be a prayer service each afternoon during the week at 4 o'clock in the Memorial building in charge of the several societies of the church, which all ladies of the church and congregation are specially invited to attend.

Six Patrols of Boy Scouts In the City.

On last Friday Rev. D. M. Litaker, the pastor of Centenary Methodist church, organized two patrols of Boy Scouts of ten boys each. These added to the four patrols which have been organized by Mr. Martin of the Y. M. C. A., make six patrols in the city.

MAUD POWELL

The Greatest of Woman Violinists—Here on Tuesday, Feb. 28.

The mere announcement that Maud Powell, the violinist is to play at the West Market Street annex on the evening of Tuesday, February 28, should be sufficient to insure a crowded auditorium. Maud Powell is the greatest of woman violinists, and as a New York critic said lately, "It is not a case of 'Ladies first' when we place Maud Powell's name at the top."

But it isn't Maud Powell's great artistic standing that brings crowds to her concerts. It is the human qualities of her playing that reaches the hearts of her hearers. Whether the music she plays is classic or romantic, or the passionate outbursts of the Slavic composers, she puts a message in it that even the most unmusical auditor can

understand. This is the supreme gift of the concert player. Madame Powell shares it with her brother artist Paderewski. It is the secret of their wonderful hold on the public. Appreciation of this quality is voiced in the following paragraph. The critic writes—

"Listen to Maud Powell's violin. If you want to be transported to a heaven of delight by the pathos of a simple sweet song—if you want to feel the uplift which an evening of aesthetic enjoyment gives—or if you want to feel a thrill of patriotism because a great, modest, unaffected, true and vibrant talent has been born in the Western Hemisphere, in short, if you want to find out how much can be got out of a fiddle, go listen to Maud Powell."

THE STARVING CHINESE

Mr. E. J. Davis Will Receive and Forward Contributions.

The Hwai River and its northern tributaries in the province of Anhui, China, were higher last summer than ever before known, not only destroying most of the crops in the fields, but washing away many barns in which crops already harvested were stored. The destruction was all the greater from the fact that much of the land is lower than the river beds.

The result has been such a famine that it is estimated at least two million Chinese will starve to death, unless furnished with food by the gifts of others. Many have already perished, and conditions will grow worse till next summer's harvests.

Several parties have handed me money to forward for the relief of the famine sufferers, and if there are others who would like to give something for this purpose, I will be glad to forward it for them.

CHRISTIAN CHURCH REVIVAL

Mr. Charles Butler To Assist In Services To Begin Next Thursday.

What promises to be one of the greatest revival meetings ever undertaken in the city by a single church will be that of the Walker Avenue Christian church commencing next Thursday evening. The church has secured the services of Mr. Charles Butler, the great evangelist singer who has been with the noted Torrey for several seasons, and Mrs. Butler, and they will have charge of the music. This man and his wife are among the very first of revival singers, and the fact that they have traveled with Torrey shows in itself that a treat is promised Greensboro people in the music of the revival. Butler is also a preacher himself, but he confines his efforts largely toward directing the music. He is at present on a leave of absence but will return in a few weeks to the Torrey meetings.

Recently Mr. Butler was at Asbury Park, N. J., in a series of meetings, and the following is taken from a newspaper of that city:

"Butler has perfect articulation, one of the most sympathetic baritone voices the world ever heard through training, a register of two full octaves with every tone perfect, strength enough to completely fill the tabernacle, and not a trick of the trade nor a foible except a liking for good clothes, much like Mr. Sunday (the revivalist) himself. He is a perfect gentleman all the time, quiet, amiable, pleasant to meet, and sings standing beside the pulpit like a statue without a movement of any part of the body—and how he does sing! Alexander dubbed him "The man with the orange blossom in his voice," and I am sorry I cannot invent a better expression of the wonderful musical ability of this man Btuler."

Mr. Butler's wife is also a singer of wide reputation. They will be here for ten days from Thursday night of this week.

GOV. MOREHEAD'S BUST.

One Will Be Placed In Niche of Capitol Building.

Raleigh, Feb. 18.—A bust of Governor Jno. M. Morehead is to be set up in one of the niches in the rotunda of the state house during the present year. This announcement is just made by Secretary R. D. W. Connor, of the State Historical Commission through whom the bust is to be placed. It will be given one of the two niches remaining vacant on the first floor of the rotunda. Morehead was governor two terms, his elections having been in 1840 and again in 1842. He was the president of the North Carolina Railroad which he organized and put through as one of his greatest undertakings for the state. The State Historical Commission is to select the artist to execute this bust at an early date.

BUTTERFLY AND OWL—SPRING

And Spaghetti Trees Are Blooming Beside Restaurants.

New York World.

Spring, gentle spring, has come to Staten Island already. A June sun shone there yesterday and a big yellow butterfly flew into "Hi" Brown's house at Silver Lake.

Brown, who is Assistant Superintendent of Buildings, exhibited the butterfly in Borough Hall. Then he presented it to the Staten Island Association of Arts and Sciences to prove that the island is the finest winter resort on earth.

Another spring sign:

Edward Kane, a farmer, of Berch avenue, Linoleumville, was walking on the Richmond turnpike. An owl flew out of a hollow tree. Kane broke the bird's wing with a stick, captured the hooter and placed it on exhibition in Worth's Hotel.

And still another omen:

Wounded to death by a hunter, bluebird fell in the yard of Michael J. McFarland, an accountant in the Richmond Borough tax office, who lives on Sherman avenue. Elm Park Heights. The bird lived only an hour.

And the surest signs of all:

The 400 breweries on the island are running overtime and the Italian restaurateuers are planting macaroni bulbs and trimming their spaghetti vines.

Life Saved at Death's Door.

"I never felt so near my grave," writes W. R. Patterson, of Wellington, Texas, as when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and that I am alive today is due solely to Dr. King's New Discovery, which completely cured me.

Now I weigh 187 pounds and have been well and strong for years." Quick safe, sure, its the best remedy on earth for coughs, colds, lagrippe, asthma, croup and all throat and lung troubles. 50c. and $1.00. Trial bottle free. Guaranteed by Fariss-Klutz Drug Co.

Few men are inclined to let well enough alone when they see something better within reach.

This is what Mr. and Mrs. C. A. Ledbetter said on January 22:

"Gentlemen: Last night our daughter, age five years, was taken suddenly with pneumonia. We used 1-2 box of Mother's Joy as directed, and today she is almost well, thanks to the good remedy so near at hand and so cheap. This was a violent case, and hope you success. 520 Laura avenue."

Spiral Stocking Latest Whim.

New York Press.

Speak it softly—the newest whim in hosiery is the spiral stocking. It was whispered in Peacock alley yesterday that a half hundred pairs had been made to order for Lady Decies—whether the youthful-looking Dowager or the former Vivien Gould was not specified. As the name hints, the spiral stocking pursues a tortuous course. It starts at the foot, as all stockings do, but, unlike other hosiery, it goes winding, winding. The—isn't it a garment?—is made of two materials. One, a web of heavy silk, constitutes the body of the spiral. The lighter stuff—mere gauze—fills the spaces between the coils of the other. As the materials are in contrasting colors, the effect is said to be harlequinesque. One argument in favor of the new stocking is that requires neither garter nor suspender. It is predicted it will be extremely fetching when low shoes come back with the bluebird for happiness—though no really sedate bluebird, doubtless, could be induced to adorn herself in such fashion.

An Open Letter.

Kernersville, N. C., Jan. 4, 1911, Vick's Ramily Remedies Co., Greensboro, N. C. Gentlemen:—I have used your Croup and Pneumonia Salve for spasmodic asthma and find it superior to anything I have ever tried. I cheerfully recommend it to any one suffering with this disease. Yours truly, Geo. W. Wilson.

Being Glad.

Philadelphia Press.

Out in Ohio last week a little boy was rescued from under a trolley car and he said in a placid voice:

"Don't worry about me; I'm all right. I'm glad to be alive."

Glad to be alive.

Who isn't Or who shouldn't be?

The great wonder about most persons is that they do not comprehend the mystery of their being at all—why they exist. Many of them may not deserve it.

It is a fact that good men and women—really good ones—are happy and agreeable. They have learned to grow happy or get lean. When the weather is bad they brave it; when it is good they enjoy it deliciously.

So should all wise folks. Why shouldn't one cultivate the habit of being amiable, merry, gladsome, and disposed to look out upon life with charitable and cheerful view?

Mur, Mammy, and Mother, push your boys out and let them sell Mother's Joy and get the bicycle. It is a great lesson for them. For sale by Conyers & Sykes.

MEET AFTER FORTY YEARS.

They Quickly "Talk Scotland" and Have a Wee Drappie.

New York Tribune.

Mrs. Jennie Blackwell, of Philadelphia, felt rather proud last night when she arrived here from Colon on the steamship Metapan for having brought together two old friends on the run up the coast to New York.

On the first day out from the Isthmus she met a fellow-passenger named David Cochrane, an engineer of Philadelphia. Being a fellow-townsman, Mrs. Blackwell felt free to ask him many questions about himself. Among other things she learned that Cochrane had come from Scotland. On the third day at sea Mrs. Blackwell met John Johnson, the chief engineer of the Metapan, also a Scotchman. She told Cochrane about the chief and introduced them.

"You're both Scotch," she said, "Now talk Scotland."

"Whut part are ye frae?" asked Cochrane.

"Arbroath," replied Johnson.

"And yer full name?"

"David," replied Cochrane, dryly.

"My name is John Johnson," said the chief. "I'm from Arbroath. Did ken a schoolmaster named Davidson?"

"Maxwell Davidson? Aye! I wen to his school," said Cochrane. "I ken ye weel, laddie. I played wi ye 40 years ago. Come aft, mon, an hae a wee drappie."

The two Scothmen walked to the chief's cabin singing "Auld Lang Syne."

Remember the Name

Foleys Hony and Tar for all coughs and colds, for croup, bronchitis, hoarseness and for racking lagrippe coughs. No opiates. Refuse substitutes. Howard Gardner.

Other People's Money.

"When Dustin Stax went into Wall street he didn't have a dollar he could call his own."

"Yes. But in those days he was more particular about whose dollar he called his own."

Home protection is true wisdom. Vick's Croup and Pneumonia Salve ought to be in every home for its quick relief and prevention of two dangerous diseases and the more common ailments such as Colds, Catarrh, Burns and Chaps.

And many a woman would rather be envied by another woman than be loved by a man.

The truth is mighty and will prevail, especially if it happens to be disagreeable.

WILSON "DOING THINGS"

Showing How a "Scholar In Politics" May Become Practical.

Washington Post.

The scholar in politics, Gov. Woodrow Wilson, of New Jersey, seems bent on doing things with the Democratic State organization, or "doing things" to it. The present Democratic State chairman is James R. Nugent, He has displayed some symptoms which indicate a desire to quit on his own account. Much more marked symptoms have been displayed by the Governor Wilson people, who indicate that they will bring about the retirement of Nugent, no matter what his inclinations or desires.

Nugent has been a mighty capable organizer, and knows the Jersey game to the limit. It happens, however, that he learned politics in the old Senator Smith and Bob Davis school, and thus finds no favor with the new people who are in power at Trenton.

Evidently the Governor Wilson organization, or rather coterie, wants to make State Senator Harry Osborne, of Essex, the new chairman. Osborne is looked upon as the chief spokesman, manager and a few other things for the Wilson folks, and already it is indicated that the Governor's faction will reward Osborne with a seat in Congress or something equally good. It was Osborne who played some rather clever politics in getting the Essex vote away from Smith. What is more, the Democratic workers in Jersey have been complaining lately that they cannot reach Wilson to tell their wants and woes. Then came the tip that in order to see the Governor they had best stand in with Osborne. This means that the new governor does not wish to bother with actual machine politics, and is turning the details over to his managers. Osborne is a railroad builder and operator, 39 years old, and has never been connected with corporate interests.

Wife Got Tip Top Advice.

"My wife wanted me to take our boy to the doctor to cure an ugly boil," writes D. Frankel, of Stroud, Okla. "but said, 'put Bucklen's Arnica Salve on it.' She did so, and it cured the boil in a short time." Quickest healer of Burns, Scalds, Cuts, Corns, Bruises, Sprains, Swellings. Best Pile cure on earth. Try it. Only 25c. at Fariss-Klutz Drug Co.

Falls Victim to Thieves.

S. W. Bends, of Coal City, Ala., has a justifiable grievance. Two thieves stole his health for twelve years. They were a liver and kidney trouble. Then Dr. King's New Life Pills throttled them. He's well now. Unrivaled for Constipation, Malaria, Headache, Dyspepsia. 25c. Fariss-Klutz Drug Co.

BREEZY RIDE ON BUMPERS.

M'Gee, of Philadelphia, Doesn't Know How He Got There.

Baltimore Evening Sun.

The peculiar sight of a man sitting on the bumper of a tender of the locomotive of the New York-Washington express of the Pennsylvania greeted the employes of the company when the "flyer' pulled into Union Station shortly after 10 o'clock last night.

George N. M'Gee, who says he is 56 years old, and a grocer of 6300 Theodore street, Philadelphia, proved to be the "free rider." He is now locked up in a cell at the Central Police Station, held to await communications from his family or friends.

Riding on the "fast flyer," which reels off mile after mile at a one-minute clip, is a most thrilling experience, but McGee was unable to give much of his experience when arraigned before Justice Grannan(in the Police Court, this morning.

"I don't know a thing about it," said the prisoner, who, although well dressed, was still covered with the grimmy dust that made him look very much like the engineer. "How I got on the train is a mystery to me. I do not feel any the worse for what you say I have been through. It must have been pretty dangerous riding on so small a space. I am all right now, and I guess I can get home."

McGee was arrested last night by Special Officer Burke, of the company at Union Station. He was much surprised to see the figure crouched on the bumper of the "flyer," and took the man in charge. He appeared to be very much under the influence of liquor, and was charged with riding on the car unauthorized. Justice Grannan did not pass any sentence in the case, but is holding McGee until his friends can be heard from.

PNEUMONIA FOLLOWS A COLD.

But never follows the use of Foley's Honey and Tar, which checks the cough and expels the cold. M. Stockwell, Hannibal, Mo., says: "It beats all the remedies I ever used. I contracted a bad cold and cough and was threatened with pneumonia. One bottle of Foley's Honey and Tar completely cured me." No opiates, just a reliable household medicine. Howard Gardner.

A Leading Question.

Kansas City Journal.

"Mr. Wombat?"

"What is it, Tommy?"

"When you were a little boy and fellers called on your sister, did they ever give you a nickel to go out and play?"

Backache, Rheumatism, Sleeplessness

Result from disordered kidneys. Foley Kidney Pills have helped others, they will help you. Mrs. J. B. Miller, Syracuse, N. Y., says: "For a long time I suffered with kidney trouble and rheumatism. I had severe backaches and felt all played out. After taking two bottles of Foley's Kidney Pills my backache is gone and where I used to lie awake with rheumatic pains I now sleep in comfort. Foley's Kidney Pills did wonderful things for me." Try them now. Howard Gardner.

If you call at our store during our Majestic Demonstration Week and allow us to show you the many advantages and superior qualities of the Great and Majestic Range, and will purchase one at the regular price, we will give you Free the beautiful and useful Souvenir Set of Ware illustrated in this advertisement. This ware is made to made to match the quality of the Majestic Ranges, and we know all ladies will see the beauty and utility of this set. especially the first three pieces, which are entirely new and cannot be had alone by purchase, except at a very high price. The prices of Majestic Ranges are the same, but we give the set FREE with each Majestic Range bought during the demonstration week only.

Reasons Why the Great Majestic You Should Buy

1st. It has the reputation of being the best range money can buy.

2d. It not only has the reputation but IS the best range made, and we will prove this to you if you will let us.

3d. It is constructed of malleable iron, material you can't beat, and of Charcoal iron, material that resists rust 300 per cent greater than steel, is riveted together air tight. No heat escapes or cold air enters the range, thus uses very little fuel to do perfect work.

4th. The reservoir alone is worth the price of range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left hand lining, and is movable and sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from fire.

Majestic ranges use less fuel; heat more water—and heat it hotter; costs practically nothing for repairs; lasts three times as long; bakes better; easier to keep clean and gives betetr satisfaction than any other range on the market. If you know positively that the above statements are true, wouldn't you buy a Majestic at once?

It is urged that all Endeavorers in the city attend this meeting and a cordial invitation to attend is extended all young people.

MRS. POPE ENTERTAINS.

Delightful Social Function in Honor of Visiting Young Ladies.

Mrs. P. C. Pope was hostess yesterday afternoon at one of the most delightful of the many informal social functions which have marked the present season in Greensboro, when she entertained in honor of Miss Alice Faulkner and Miss Rebecca Leigh, both of Virginia.

While the fifteen guests gathered around five tables to engage in the great national game of cards, the play served merely as an introductory to the gay conversation in which there was always an undercurrent of charming good humor, reflecting the gracious hospitality for which this home is distinguished.

Following the games a delicious salad course was served, with coffee and bonbons, after which Mrs. B. C. Sharpe was importuned to give one of her charming recitations. Responding with her usual grace and ready compliance when in the hands of her friends, she gave three—the last being Poe's Bells, at the request of her hostess, much to the delight of all present.

Those enjoying Mrs. Poe's hospitality were: Misses Alice Faulkner, Rebecca Leigh, of Virginia; Mary Evans, of Raleigh; Watkins, of Milton; Williamson, of Boydton, Va.; Priscilla Dodson; Mesdames B. C. Sharpe, W. T. Gayle, O. Williams, Richard Johnson, J. R. Donnell, H. L. Fry, Eugene Robeson, Jansen and Al Fairbrother.
